

WALL ARTS

HAIRON LEATHER WALL ARTS ARE UNIQUE AND SOPHISTICATED FOR SEVERAL REASONS

NATURAL VARIATIONS

Leather:- Each piece of leather has its own natural grain, texture, and imperfections, making every artwork inherently unique. These variations add character and depth to the piece.

Canvas/Printed Art :- While they can vary based on the artist's technique, the material itself is more uniform, especially with mass-produced printed art.

CUSTOMIZATION

Leather:- Customization is often easier with leather, as artisans can tailor designs to specific preferences, incorporating personal touches or bespoke designs that reflect the owner's individuality.

Canvas/Printed Art:- Custom prints can be made, but they often lack the handcrafted element and the rich texture of leather.

ARTISAN CRAFTSMANSHIP

Leather :- Handmade leather art often involves intricate, labor-intensive techniques such as carving, embossing, or painting directly on the leather. The skill and time invested by the artisan make each piece a one-of-a-kind creation.

Canvas/Printed Art: Although canvas art can also be handmade, printed art is often mass-produced, reducing its uniqueness.

LOOK AND FEEL

Leather:- Offers a unique texture and rich appearance. It can provide a luxurious and sophisticated look, with natural variations that add to its charm.

Canvas/Printed Art:- Canvas has a traditional, familiar feel and printed art can reproduce any image with precision. However, they may lack the tactile richness and natural imperfections that leather provides.

DURABILITY

Leather:- Known for its longevity, leather can withstand wear and tear better than most materials. It's resistant to fading, stretching, and cracking if properly cared for.

Canvas/Printed Art:- Canvas can be durable but is more susceptible to damage from moisture, tearing, and fading over time. Printed art, especially on paper, can be less durable and more prone to environmental damage.

THREE- DIMENSIONAL QUALITY

Leather:- The texture and thickness of leather allow for a more three-dimensional, tactile experience. This adds an element of depth and engagement that flat canvas or printed art cannot replicate.

Canvas/Printed Art: These typically have a flat surface, offering less tactile variety and depth.

SUSTAINABILITY

Leather:- If sourced responsibly, leather can be a sustainable option. Upcycling or using leather by-products reduces waste. Often, Hairon leather is a by-product of the meat industry, making it a sustainable choice for those looking to minimize waste and utilize natural materials responsibly.

Canvas/Printed Art:- The sustainability of canvas and printed art depends on the materials used and the printing process. Eco-friendly inks and recycled materials can make printed art more sustainable, but traditional methods may have a higher environmental impact.

OUR MOTTO

AN ISO 9001 and Socially
Complaint Company

As we understand that for any business to grow there has to be repeatability of orders which only come through Timely deliveries, right quality and correct pricing of the product. That is why we believe in providing value for money to our customers through continuous innovation and improvement being consistent in our quality and delivery and inculcating a spirit of partnership with our customers, suppliers, society.

OUR SOCIAL COMMITMENT

We are also determined to fulfill our social commitments by prohibiting the usage of CHILD LABOUR. Further we are also committed to enforce all the labour laws, and provide a neat and clean working environment for the labour. We are also a member of
CARE AND FAIR.

QUALITY POLICY

AN ISO 9001 COMPANY

This is a field , where we have a most competent , dedicated and above all a cautious team , who have in depth knowledge of manufacturing and raw material. The quality of our product is checked and verified during each step of manufacturing by our Master craftsmen and quality controllers.

Leather is:

1. Made from a by-product of food industry (recycle).
2. a long-lasting (durable) material, two very important aspects of sustainability.

1. ORGANIC

Have you ever thought that leather is timeless? The more it ages the more lovely and precious it becomes. Leather is eternal - which explains why it is the most sustainable material. Think about it.

2. PLASTIC FREE

Have you ever thought that leather is plastic free? What could be more # plastic free than avoiding plastic? Leather is not only gorgeous and top quality - it is a naturally plastic free material. Think about it.

3. SUSTAINABLE

Have you ever thought that leather is fashion, not fast fashion? Leather is a high- quality, stylish product - always on trend. Being eternal, it is far removed from the world of fast-fashion, and therefor, it is sustainable. Think about it.

4. RECYCLABLE

Have you ever thought that leather is a by-product of the food industry? No animals have ever been killed for leather production; all the hides used are recycled from the food industry. That's why leather is an ethical and sustainable choice. Think about it.

5. SUSTAINABLE

Leather can be sustainable, circular and Bio - degradable when using the right chemicals. By using modern technique we are able to do CHROME FREE dying, which make the leather Bio-degradable/ Green and Eco-friendly. Think about it.

6. GREEN/ ECO FRIENDLY/ CHROME FREE

We are now using CHROME FREE leather procured from LWG Tannery.
